

Product Questionnaire **ROTOSPRAY®**

Raw material data:

Solid matter / carrier substance:

- Product designation: _____
- Chemical designation: _____
- Composition:
 - _____ (%)
 - _____ (%)
 - _____ (%)
 - _____ (%)
 - _____ (%)
- Foreign particles (e.g. metals): _____
- Product shape (meal, pellets, expanded product, crumbles etc.): _____
- Granular size distribution: _____ (mm)
- Bulk density: _____ (kg/l)
- Water content: _____ (% by weight)
- pH value: _____
- Temperature (inlet): _____ (°C)
- Flow properties: _____
- Other product properties (adhesive, hygroscopic, thixotropic): _____
- _____
- Product quantity: _____ (kg)
- Packing: _____

Liquid / additive:

Liquid 1:

- Product designation: _____
- Chemical designation: _____
- Composition:
 - _____ (%)
 - _____ (%)
 - _____ (%)
 - _____ (%)
 - _____ (%)
- Consistency (water solution, oil, suspension etc): _____
- Dynamic viscosity (20 °C): _____ (mPas)
- Addition quantity: _____ (%)
- Packing: _____

Liquid 2:

- Product designation: _____
- Chemical designation: _____
- Composition:
 - _____ (%)
 - _____ (%)
 - _____ (%)
 - _____ (%)
 - _____ (%)

Product Questionnaire **ROTOSPRAY[®]**

- Consistency (water solution, oil, suspension etc): _____
- Dynamic viscosity (20 °C): _____ (mPas)
- Addition quantity: _____ (%)
- Packing: _____

- Will the additives be supplied together with the solid matter? _____

Particularities to be observed when handling the raw material:

- Storage, packing, and disposal regulations: _____
- Handling instructions (danger to health, necessary protection measures, dust explosion hazard etc.): _____
- Declaration of hazardous freight (CAS no. and EC no.): _____
- Protection measures, safety clothing, breathing mask (filter class): _____
- Safety data sheet: _____
- **The products have to be marked clearly!**

Test aim and task:

Requirements on the final product:

- Distribution precision of the additives: _____
- Homogeneity: _____
- Further criteria of judging: _____

- Other requirements: _____
- _____
- _____

Data after processing:

- Required product quantity (sample) for subsequent tests: _____ (kg)
- Packing prescriptions / marking: _____
- **The customer must dispose of the complete test material!**

Data for later production plant:

- Requested capacity per hour: _____ (t/h)
- Continuous or batch operation: _____
- Plant execution (stainless steel, dust-tight, explosion protection etc.): _____

Address:

Company/address

Date/Person in charge:

AMANDUS KAHL GmbH & Co. KG
Technikum
Dieselstraße 5 - 9
D-21465 Reinbek
Postfach 1246
D-21452 Reinbek

Phone: +49(0)40 72771-0
Fax: +49(0)40 72771-100
