

## Wood Grinding (Wet and Dry)

**Crush your wood chips, wood shavings, sawdust and other lumpy biomass using the KAHL pan grinder mill.**

The wood chips are ground between pan grinder rollers and die

- This grinding process is appropriate for wet and dry raw material
- Capacity range from a few hundred kg up to 40 t/h and more
- Silent operation
- Minimum energy consumption
- Low space requirement
- Without aspiration system, cyclone, filter and exhaust air plants

### **Optimum crushing of wood chips!**

- No ATEX problems
- Low energy consumption
- No noise protection measures

### **Wet grinding of wood chips using the KAHL pan grinder mill:**

- Appropriate for G30 and G50 wood chips
- Pre-grinding for trouble-free fine grinding in traditional hammer mills
