

Coffee

Roasting:

Batch roasting, profile roasting and gentle roasting of whole and broken coffee beans. Constant bean quality for all market requirements from espresso roasting to conventional and fast roasting. Interesting for owners of coffee shops, speciality roasters as well as mainstream roasters.

Crushing:

Filter coffee, espresso or superfine. Different grinding degrees are achieved rapidly and exactly. A wide selection of rollers and a multi-stage, flexibly exchangeable roller system, high compaction rates.

Examples of products:

- Green coffee
- Roasted coffee
- Ground coffee
- Filter coffee
- Espresso
- Superfine

Pelleting:

Processing and compaction of the most diverse products (e.g. coffee chaff) with regard to their structure, bulk density, moisture, binding strength, and particle size.

Processing of powdery, fibrous, lumpy and pasty products to uniform pellets of different size.

Examples of products:

- Coffee husks
- Coffee chaff
